

IntelliTest Manager™

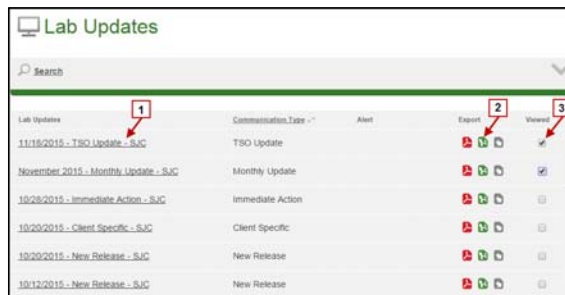

A flexible online tool that gives you access to new test information, changes and updates based on the 12 month test utilization for your account.

Login to IntelliTest Manager™ with your account information at IntelliTestManager.com

LAB UPDATES

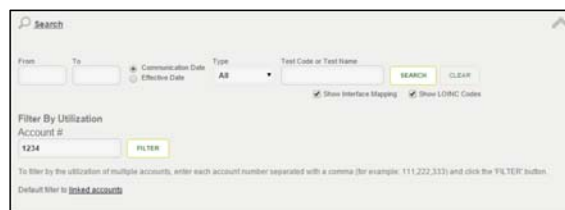

Take the following actions on this page:

- View.** Click on the title for the communication you wish to view.
- Print or Export.** Click the icons to print, export to Excel, or export to your EMR or LIS vendor's product specific format.
- Manage.** Select the *Viewed* checkbox and the system will store this to remind you of communications you have reviewed.

Search for specific communications:

- Enter a date range, select *Communication Date* or *Effective Date*, choose a *Type* of communication and/or enter test information.
- Search results can be exported to Excel.
- Select *Show Interface Mapping* to include this information in the communications you view. After searching, you can further filter the communications you see based on your rolling 12 month test utilization.

View an individual communication:

Information is available in different formats on three tabs.

- Table of Contents.** Click on individual tests to view or print their details.
- View Details.** See information and announcements as well as all test details.
- View by Category.** View and sort tests according to the items included in the communication.

Customize Your View:

While viewing an individual communication, click the *Customize Your View* link to expand this section.

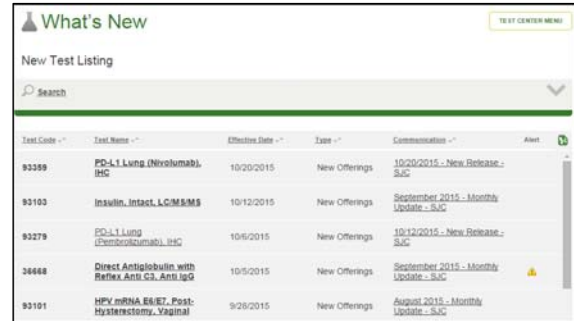

- Click *Filter* to limit communications to those based on the 12 month test utilization for your account.
- Uncheck boxes next to criteria you do not wish to see in the *Include Fields in Your View* area.
- Check boxes next to items you do not wish to see in the *Exclude Items from Your View* area.
- Print or export the current communication you are viewing using the icons.

WHAT'S NEW

View a rolling six months of new test announcements on this page.

- Click the title of a test to view or print the details.
- Click the title of the communication to view the entire update where the new test offering was included.
- Search for specific date ranges, types of communications or tests, then filter by utilization.
